DETAILED ACTION

Reason for allowance

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 4-6, the prior arts fail to teach or fairly suggest a network device comprising central switch fabric timing subsystem for providing a reference signal to each of the local switch fabric timing subsystems, wherein the reference signal is a segment demarcation signal and wherein each the local switch fabric timing subsystem generates a reference clock signal from the received reference segment demarcation signal and passes the received reference segment demarcation signal and the generated reference clock signal to switch fabric components, in combination with other limitations, as specified in the independent claim 4.

Regarding claims 28-32, the prior arts fail to teach or fairly suggest a method of operating a network device comprising a step providing a reference signal from a central switch fabric timing subsystem, wherein the central switch fabric timing subsystem is a first central switch fabric timing subsystem and the reference signal is a first reference signal and further comprising : providing a second reference signal from a second central switch fabric timing subsystem to the first and second local switch fabric timing subsystems, in combination with other limitations, as specified in the independent claim 28.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
